Client Testimonials

Charles Sturt University

UNILINC has enabled us to provide library and information services to staff and students - on or off campus, in Australia and overseas. The benefits of sharing resources and expertise and of being able to rely on expert staff are demonstrable. (Margaret Macpherson, University Librarian).

Curtin University of Technology

UNILINC has worked closely with Curtin Library and Information Service to effect very significant cost savings in the area of technical services. UNILINC has special expertise in identifying areas for process improvement and works well with internal clients to help explain and effect change. UNILINC is very professional in its approach. (Dr Vicki Williamson, University Librarian).

Deakin University

UNILINC's flexibility and ability to embrace new ideas have enabled us to move into new and exciting areas for the delivery of online training (Bernadette Lingham, Faculty Liaison Librarian - Arts).

Ovid Technologies Inc.

UNILINC's systems excellence has been a strong factor in Ovid's success in Australia and the region. (Diane Koen, Vice President Sales).

University of Sydney

As part of a major review of our processing operations the University of Sydney Library engaged UNILINC to conduct an extensive cost study. The results of the study have been extremely useful in identifying areas where savings could be made and processes streamlined. (Kate Sexton, Associate University Librarian).

innovation
information
lifelong learning
flexibility
collaborative partnerships
efficiency
resource sharing

UNILINC is a cooperative network, owned by public institutions, unified by the common desire to embrace and spread the benefits of the latest technologies at minimum cost.

Web-ezy Solutions Pty. Ltd. is a wholly owned subsidiary of UNILINC Limited.

Products and Services

Integrated Library Management System

1

UNILINC offers a fully integrated library management system where costs and benefits are shared by member institutions. Acquisitions, cataloguing, circulation, online catalogue (OPAC) and serials, together with the Web interface, represent the major elements of the system functionality.

The Shared System environment offers invaluable resource sharing support for reciprocal borrowing and interlibrary loans. In addition, the sharing of cataloguing copy ensures that participating libraries achieve significant efficiencies.

Web-ezy Software

2

Web-ezy provides a shell for the development of customised, interactive, web-based training for information and knowledge management skills.

The Web-ezy software is continuously enhanced and updated to suit the dynamic environment of the Web.

This innovative Australian software:

- provides for self paced learning
- delivers a high level of interactivity
- is designed to be customised
- uses structured learning principles
- includes assessment
- uses plain English
- is fully maintained and supported

Web-ezy is marketed by Web-ezy Solutions and more information about the software can be found at <http://www.web-ezy.com>

Electronic Database Service

3

UNILINC provides electronic access to a wide range of full-text and abstracting databases mounted on high speed servers in Sydney.

UNILINC's electronic database services include the evaluation of databases; negotiation of discounts on database licences; system management; help-desk services; and service delivery via the Internet.

Strategic Acquisitions

4

UNILINC members benefit from the substantial discounts the company is able to negotiate on books, electronic resources and software.

The cost savings result from the combined purchasing power of the members and also from UNILINC's contract negotiations.

Contract Cataloguing and Outsourcing

5

UNILINC offers a cataloguing service to libraries and book suppliers. Features of the service include expert professional staff, a wide range of systems experience, ready availability of quality MARC records, project management and competitive rates.

UNILINC offers flexibility of service delivery to meet the specific needs of the individual library.

Many types of libraries benefit from this service including public, special and academic libraries.

Technical Services Consulting

6

Our professional consultants have extensive expertise in library technical services. We can provide greater efficiencies through

- business process redesign
- improved turnaround times
- efficiencies and cost savings
- quality of practice
- benchmarking
- continuous improvement

WINCAT

WINCAT is CD-ROM catalogue software. Features include

- limiting by material type, date, etc
- support for references
- flexibility for use by multi sites

Training

UNILINC's excellent training services are provided from our premises or at client sites. They include

- Kinetica searching, cataloguing and document delivery *
- library system use
- cataloguing and USMARC
- courses provided on demand

* UNILINC has authorised Kinetica Training Agents on staff and conducts courses in all states and territories.

Systems Management and Web Hosting

9

UNILINC's networking and systems staff have a high level of technical and applications expertise. UNILINC hosts and manages business web sites and has installed and manages critical systems and networks on behalf of a number of clients.

Meeting Room and Training Facility

UNILINC's centrally located city office (near Town Hall) has a modern and well equipped Meeting Room and computer Training Facility for hire.

Our focus is personalised service and ready availability of technical support. We also provide access to high speed network connections.
